PAPER TABLET

The Paper Tablet gives you the freedom to capture your ideas by hand on paper and simultaneously benefit from all the advantages of digital creativity. Invisible NCode™ technology embedded within each page enables the Moleskine Pen+ to recognize where it is within the notebook and to transfer all your freehand notes from page to screen in real time via the Moleskine Notes app. You can then digitally transcribe, edit, organize and share handwritten notes and sketches, for seamless integration between paper and cloud. Distinctively rounded pages project beyond the cover to reflect the shape and look of a digital tablet, while resistant 100 g/m² paper provides the perfect surface for either writing or drawing. The Moleskine Pen+ recognizes not only differently numbered Paper Tablets, but also different covers, page layouts and sizes – allowing you to switch between notebooks and seamlessly develop a variety of ideas on the move, on the page and on screen.
